

Acts, regulation and guidelines that apply to the project activities

As described in the determination letter of the ERMPC, the following permits are need for the fieldwork activities:

- A permit delivered by the Department of Fisheries and Ocean needs to be issued for the harvest of eelgrass samples in the region (Fisheries Act, 45). We applied for this permit on May 26th 2023 (identification number of the application: 1656972).
- A research permit delivered Nunavut Research Institute needs to be issued for the planned water and sediment sampling as the sampling sites are within the Nunavut jurisdiction. This was confirmed by Jamal Shirley (NRI).
- A Wildlife Research License delivered by the Government of Nunavut needs to be issued.
